FROM : Chief, Dissemination Branch, SSU

25X1 The following information received from [REDACTED]
[REDACTED] is being forwarded to you without comment for what-
ever use or value it may have:

- 25X1
1. Source states that the Royal Air Force at Blida is selling aviation gasoline to the "colons" of the region and to anyone else who wants it.
 2. The gasoline is sold in drums of 200 liter capacity, and the Air Forces prefer to sell 20 to 30 drums at a time. The price is 3,500 francs per 200 liters; the drums themselves are not sold.
